**MISSION**

To provide leadership and advocacy for Delaware’s children.

The department’s primary responsibility is to provide and manage a range of services for children who have experienced abandonment, abuse, adjudication, mental illness, neglect, or substance abuse.

The department endorses a holistic approach to enable children to reach their fullest potential.

**VISION**

Think of the Child First!

The department’s vision is for every child to have safety, stability, self-esteem, and a sense of hope.

The department will lead a system of care (both community-based and residential) that is child centered and assures effective, timely and appropriate support for Delaware’s children.

This mission will be achieved when families, staff, community partners, and other stakeholders think of the child first.

The department’s activities include prevention, early intervention, assessment, treatment, permanency, and aftercare.

---

The department will offer desirable career opportunities, attracting and retaining proud and talented employees who are motivated to think of the child first in all that they do.

**KEY OBJECTIVES**

The primary goals of the Department of Services for Children, Youth and Their Families (DSCYF) are:

- The safety of children, youth and the public; and
- Positive outcomes for children in its services.

To achieve these goals, the department provides services in five core areas that parallel DSCYF’s children and youth customer segments:

- Child Protective Services;
- Juvenile Justice Services;
- Child Mental Health Services;
- Prevention and Early Intervention Services; and
- Child Care Licensing.

The key objectives of the department are to:

- Transform the juvenile justice service delivery system;
- Reduce the percentage of children and youth who return to service within 12 months of case closure;

Children and Families: Reaching Their Fullest Potential.

KEY OBJECTIVES
- Provide appropriate, timely services to children and their families. Ensure that services are provided with respect and care and are available, accessible and continuous.

- Improve the performance of the division by reviewing existing processes and making changes as needed.

BACKGROUND AND ACCOMPLISHMENTS
The Division of Child Mental Health Services (DCMHS) has achieved the following:
- Since 1996, in partnership with Medicaid under the Diamond State Health Plan, DCMHS has effectively operated a public managed care children’s behavioral health care system, utilizing a professional team approach to assure quality care;
- Integrated mental health and substance abuse treatment for Medicaid, CHIP and non-Medicaid children and youth, providing a full array of behavioral health care services;
- Developed a comprehensive provider network of community-based services;
- Received re-accreditation by the Joint Committee on Accreditation of Health Organizations (JCAHO) as a Managed Behavioral Health Care Organization in December 2003, in addition to the Terry and Silver Lake Treatment centers receiving re-accreditation in October 2004 and January 2005 respectively;

YOUTH REHABILITATIVE SERVICES  
37-05-00

MISSION
To support public safety and positive change of children, families and communities through guidance, education and empowerment.

VISION
Youth Rehabilitative Services (YRS) in Delaware will set the standard for excellence in juvenile justice.

KEY OBJECTIVES
- Institute the System of Care model by recognizing the needs of the child and directing services toward fulfilling those needs through collaboration with Child Mental Health, Family Services and the community.
- Measure and monitor the progress of youth who receive YRS services in the areas academic progress, overall case management and recidivism.
- Maintain American Correctional Association (ACA) accreditation at the Ferris School, New Castle County Detention Center and Stevenson House Detention Center.
- Minimize institutional overtime and casual/seasonal payroll expenditures by managing populations.

BACKGROUND AND ACCOMPLISHMENTS
Community Services Re-engineering Project: Community Services undertook a project to adjust caseload sizes by simplifying and combining similar types of cases, reclassifying cases from 13 to 4 categories. Each of these categories has specific probation officer contact requirements that are based on the category level.

Grace and Snowden cottages: Operate two staff-secure, gender-specific state programs on the department’s campus for up to 30 delinquent youth.

Global Positioning System (GPS) tracking: Community Services uses GPS equipment to electronically track the geographical location of probation youth 24 hours a day. This equipment ensures probation compliance and increases probation officer efficiency. In addition, the system has the capability of notifying the probation officer immediately if a youth violates an identified exclusion area, such as a school zone. Currently, up to 17 youth can be monitored.

Helping One Student To Succeed (HOSTS) Program: HOSTS is a structured mentoring program that targets students who need assistance in reading, math and other academic skills at the Ferris School. Students are matched with trained business and community volunteer mentors, whom serve as role models to motivate, support and provide individual student attention. At the present time, there are 50 mentors at the Ferris School.

House of Joseph: The primary focus is to redirect youth from future involvement with the criminal justice system and from incurring additional delinquency charges that would lead them to the adult system. The House of Joseph III prepares youth for independence/self sufficiency and provides on-going services during placement. They strive to meet developmental, therapeutic and youth needs of each resident who have been determined to have behavioral or emotional problems.

Juvenile Detention Alternatives Initiative (JDAI): Delaware became a replication site in January 2002. The agreement was between the Chief Judge of Family Court, Attorney General’s Office, Public Defender’s Office and DSCYF. Delaware’s objectives are to:
- Develop (or sustain) collaborations to plan and oversee the implementation of detention reform strategies;
- Study local detention policies and operations to identify opportunities to reduce the inappropriate or unnecessary use of secure detention;
- Develop, implement and/or modify objective screening techniques to guide admissions decisions;
- Plan and implement new or enhanced community-based alternatives to detention;
- Undertake case processing reforms to reduce lengths of stay, speed the administration of justice and increase system efficiency;
- Develop data systems that produce accurate and timely measures to track basic progress in terms of detention and alternative program utilization;
- Assess and improve conditions of confinement in secure detention; and
- Study, develop and implement policies and practices to reduce racial disparities in the use of secure detention.

MISSION

To promote the well-being and safety of children and their families through prevention, protection and permanency.

KEY OBJECTIVES

The safety and protection of a child is always the first priority of the Division of Family Services (DFS). As such, division services strive to ensure:

- Children at risk are safe from abuse, neglect and exploitation;
- Inter-divisional planning and coordination of services for children and families;
- Professional development of all staff to provide quality service;
- Quality assurance activities are thorough and on-going;
- Interagency and community collaboration exists to build a system of care to support and strengthen families;
- Licensing and monitoring of the state’s out-of-home child care facilities;
- Recruitment and retention of sufficient, quality foster families, and improved quality of life for children living in foster care;
- Foster families have the support and parenting skills needed to work with challenging children;
- Enriched continuum of care for children needing placement in specialized foster care and group care; and
- Children who cannot be returned to their family are settled, in a timely way, with a permanent family through adoption or guardianship or older youth are prepared for independence.

BACKGROUND AND ACCOMPLISHMENTS

The Foster Care reform efforts continue to be implemented based on the recommendations of the Foster Care Task Force created by Governor Minner. The task force report and its recommended changes require multi-year implementation with a significant amount of resources needed to change the system. With the resources provided in Fiscal Years 2002 through 2006, improvements have been made in: training, enhancing foster parent skills to accept more difficult children, foster family clustering, staffing, creating additional placement resources, emergency foster homes, and a specialized group home for girls aged 13-17.

Intake/Investigation: Family Services received 8,035 reports of abuse, neglect and dependency in Fiscal Year 2005 and accepted 5,797 or 72.1 percent of those reports.
