THE DELAWARE BUDGET PROCESS

BACKGROUND

Since Fiscal Year 1988, the State has incorporated strategic planning in the budget process with the intent to help agencies: a) recognize the requisite linkages between proper strategic planning and appropriate budgeting; b) inject a programmatic focus to budgeting for the delivery of state services; c) promote participation in the budgetary process; and d) permit the execution of an outcome-oriented vision of the state's planned activities wherein the actual rendering of a budget is only one step in a series of steps in an integrated planning and budgeting process.

Significant features of the strategic planning and budgeting processes include:

- 1) A heavy emphasis on a "front-end" planning process which encourages intra- and inter-departmental communication. Intra-departmental communication is facilitated through the creation of a department-level steering committee that coordinates and drives the planning and budgeting processes.
- 2) An opportunity for each department to re-evaluate whether it is organized in the most appropriate manner to effectively plan and implement programs and strategies and to change its structure if it is not.
- 3) An internal agency strategic planning process which includes the following steps:
 - ◆ Development of a mission statement that defines the business in which the agency is engaged and what purposes it wants to accomplish.
 - ◆ Completion of an environmental scan - a comprehensive assessment of the internal and external factors and "stakeholders" affecting the organization's mission.
 - ◆ Identification of core essential state services the agency delivers (the fundamental activities an agency is created to undertake).

From this background, the agency develops:

- ◆ The key objectives which it will pursue in support of its mission. These objectives are written as qualitative or quantitative statements expanding on policy to describe in measurable and commonly understood terms what results the agency wants to achieve and in what time frame; and

- ◆ The strategies, usually in the form of programs or initiatives, which will be carried out to achieve the key objectives. These strategies will become the basis for the agency's budget request.

- 4) The development of a systematic approach to monitoring progress toward the achievement of key objectives through use of performance measures derived from objectives and focused on outcomes. The goals of this process are to improve accountability of managers and to enhance decision-making by providing information about which strategies work and which do not.

Under this strategic planning process, departments are organized into three levels:

- 1) Department - same as currently constituted. Usually specified in the Delaware Code.
- 2) Appropriation Unit (APU) - major subdivision within a department or agency and comprised of one or more IPU's.
- 3) Internal Program Unit (IPU) - the smallest organizational level used for budget purposes; a key level for budget development and tracking; may approximate a "program."

BUDGET PROCESS AND OUTPUTS

To support a more strategic view, the Governor's Recommended Budget contains Volume I which includes summary financial data but emphasizes the Governor's policy agenda and a narrative description of agencies and their programs. The format reflects the strategic direction of agencies. An important part of this effort is the requirement that all agencies craft a mission statement, key objectives and accomplishments (past and planned) from which performance can be measured.

All key activities must be identified and systematically analyzed. These activities may be programmatic or administrative in nature.

In Fiscal Year 1998, a new budgeting computer system was piloted, the Budget Development and Information System (BDIS). This system is a client-server application using a relational database. It allows greater flexibility in budgeting and more importantly, provides the tools necessary for improved analysis and the resultant increase in the efficient use of funds.

THE DELAWARE BUDGET PROCESS

Since the Fiscal Year 1999 budget cycle that began July 1, 1997, BDIS has been used on a statewide basis using personal computers through access to the state's wide area network.

The departmental sections in Volume I contain information categorized as follows:

- ◆ Organizational Chart
- ◆ Department Mission and Key Objectives
- ◆ Five-Year Bar Chart of Departmental Budget Act Appropriations
- ◆ Budget and Personnel Charts
- ◆ Governor's Recommended Operating Budget Highlights and Capital Budget Highlights
- ◆ Subordinate organization Mission, Key Objectives, Background and Accomplishments, Activities, Budget and Personnel Charts, and Performance Measures.

The *Organizational Chart, Department Mission and Key Objectives* are the highest levels of summarization for a department. It presents an organizational chart, a broad overview of the department's mission and key objectives and identifies significant issues and changes in operating methods. All subordinate organization objectives derive from, and contribute toward, the attainment of the departmental objectives. The Governor's Recommended Budget Highlights reflect significant funding or program recommendations.

The *Five-Year Bar Chart of Department Appropriations* provides Budget Act appropriations by funding type (General Fund (GF), Appropriated Special Fund (ASF), etc.) for the previous five fiscal years at a glance.

The *Funding and Position Charts* show by fund type the actual expenditures and positions for the previous fiscal year; the current fiscal year's budget appropriation and positions; and the Governor's recommended appropriation and positions for the next fiscal year.

The *Operating Budget Highlights* section identifies the Governor's major recommendations for operating budget programs and issues with emphasis on items supporting her policy agenda.

The *Capital Budget Highlights* section identifies the Governor's major recommendations for transportation projects, and new or previously funded construction projects for state agencies. This section highlights

funding to preserve and enhance Delaware's infrastructure and foster economic growth.

The subordinate organization *Mission, Key Objectives, Background and Accomplishments, Activities, Budget Chart, Personnel Chart* and *Performance Measures* provide the details necessary to understand the programs and services provided by the organization. Also included in Volume I are detailed statewide financial statements.

Volume II provides the detailed financial data for each agency to include history, requested funding and recommended funding.

EXPLANATION OF FINANCIAL SCHEDULES

Exhibit A is a summarized report of financial operations of the General Fund of the State. This statement shows the actual General Fund revenue by sources and the expenditures by departments for Fiscal Year 2009, as well as the estimated revenue and available appropriations for Fiscal Year 2010. The last column on the right reflects the estimated revenue and the recommended appropriations for Fiscal Year 2011. Also indicated is the condition of the cash account of the General Fund that may prevail at the ending of Fiscal Year 2010 if revenue, as estimated, is realized and if recommended appropriations are approved. This statement further reflects financial information on the appropriation limit and the budget reserve account, as required by the State Constitution.

Schedule A-1 is a supporting statement of the Fiscal Year 2010 Appropriations column of Exhibit A. It identifies the estimated expenditures for Fiscal Year 2010 classified by department and source of appropriations.

Schedule A-2 is a supporting statement of the Fiscal Year 2010 Budget Act column of Schedule A-1. It identifies the Fiscal Year 2010 General Fund appropriations by department and major category of expenditure. It also identifies authorized positions for both General Fund and special fund.

Schedule A-3 is a supporting statement of the expenditure section of Exhibit A. It identifies the Fiscal Year 2011 recommended General Fund appropriations by department and major category of expenditure. It also identifies authorized positions for both General Fund and special fund.

Exhibit B shows the revenues from all sources and the expenditures of all departments, both General Fund and special funds (refers to Appropriated, Non-Appropriated, Federal, Bond and other state funds), consolidated in comparative form for Fiscal Years 2008 and 2009.

Schedule B-1 is a supporting statement of the General Fund expenditure section of Exhibit B, assembled by department and category for Fiscal Year 2009. Also indicated are the General Fund reversions by department. The category amounts in this schedule reflect expenditures by accounting object codes and are not comparable to amounts shown in Schedules A-2 and A-3, which reflect expenditures by appropriation code.

Schedule B-2 is a supporting statement of the special fund expenditure section of Exhibit B, assembled by department and category for Fiscal Year 2009.

Exhibit C is a summarized statement of capital improvement fund expenditures by department for Fiscal Year 2009. The funding sources are long-term debt and other special funds designated for capital improvement purposes.

Note

Depending upon the exhibits or schedules utilized, all amounts presented have either been rounded with the elimination of cents or to the nearest one hundred (i.e., \$1,700 would be \$1.7). Accordingly, rounding may result in some columns not totaling to the amount indicated but should be within reasonable variance.

Appropriation Limits - The amount that the legislature is allowed to authorize for spending.

◆ **Operating Budget** - The State Constitution limits annual appropriations to 98 percent of estimated revenue plus the unencumbered General Fund balance from the previous fiscal year. To appropriate more than the 98 percent, the legislature must declare an emergency.

◆ **Capital Budget** - Legislation sets three criteria. (See **Debt Limits** for details.)

Appropriations Act (Budget Act) - Legislation that is introduced and passed by the General Assembly for the state's operating budget. This bill appropriates money for personnel costs, travel, contractual services, debt service, energy, etc. The General Assembly appropriates General Fund (GF) and Appropriated Special Fund (ASF) dollars and General Fund, Appropriated Special Fund and Non-Appropriated Special Fund (NSF) positions.

Appropriation Unit (APU) - Major subdivision within a department/agency comprised of one or more Internal Program Units.

The General Assembly by three-fifths vote of the members elected to each House may appropriate from the Budget Reserve Account such additional sums as may be necessary to fund any unanticipated deficit in any given fiscal year or to provide funds required as a result of any revenue reduction enacted by the General Assembly.

CIP - Capital Improvement Plan.

Class - All positions sufficiently similar in duties, responsibilities and qualification requirements to use the same examination, salary range and title.

1. The amount of new "tax-supported obligations of the State" that may be authorized in one fiscal year may not exceed five percent of the estimated net General Fund revenue for that year.
2. No "tax-supported obligations of the State" and no "Transportation Trust Fund (TTF) debt obligations" may be incurred if the aggregate maximum annual payments on all such outstanding obligations exceed 15 percent of the estimated General Fund and TTF revenue.
3. No general obligation debt may be incurred if the maximum annual debt service payable in any fiscal year on all such outstanding obligations will exceed the estimated cumulative cash balances.
