### Office of the Governor

**10-01-01**

**Mission**

To expand economic opportunity, improve the quality of life and protect the health, rights and safety of Delawareans.

**Key Objectives**

- Get people back to work and expanding economic opportunity.
- Ensure the public education system lays the proper foundation for the future.
- Improve public safety, health and quality of life.
- Meet budget challenges, while maintaining fiscal discipline and responsibility.

**Background and Accomplishments**

Governor Markell is committed to bringing people together to create jobs, leading responsibly and moving Delaware forward. To that end, the Governor has launched many initiatives, signed a number of significant bills into law and made important investments to advance these goals. This year’s budget will build upon the success of the previous budget, legislative activity and other initiatives from the past year, which focused on the key objectives outlined above.
GETTING PEOPLE BACK TO WORK AND EXPANDING ECONOMIC OPPORTUNITY

The Governor is committed to creative solutions to improve the business climate in Delaware. Downtown Development Districts were created under Senate Bill 191 to revitalize urban areas and spur economic activity by attracting increased private funding through development and other incentives in selected areas. Fiscal Year 2015 grants have leveraged an additional $114 million in private investment to refurbish buildings that house small businesses, create green space and build new housing. The Fiscal Year 2016 Bond and Capital Improvements Act provides $8.5 million, to continue supporting the program.

As part of the Governor’s increased support to small businesses and entrepreneurs, the Delaware Economic Development Office (DEDO) has continued to increase access to funding via the State Small Business Credit Initiative. In addition, DEDO supported Start It Up Delaware, which offers access to shared resources and services to entrepreneurs. Another entrepreneurial initiative, Project Pop-Up, provided 14 Delaware business owners rent-free commercial space in a Delaware downtown for three months during the holiday season. As a result of this program, two business owners have expanded to open new businesses in adjacent or nearby spaces and nine will occupy their original locations.

The Fiscal Year 2016 Bond and Capital Improvements Act continued to support the Strategic Fund, which helped several successful companies expand their business in Delaware in the past year. These projects included:
- SevOne, a successful Information Technology company, which announced its intention to add an additional 150 employees to its current Delaware workforce and invest $3 million as part of that expansion;
- InCyte, which released its first drug into the market, is projected to employ 563 people and invest $35 million in Delaware by 2016;
- Solenis LLC, a leading manufacturer of specialty chemicals, established its global headquarters in Wilmington, where it has plans to add up to 122 new full-time positions;
- Croda, which produces non-ionic surfactants from bio-ethanol, will create 80 new jobs and make $170 million in capital investments by 2017;
- Zacros America Inc. has chosen to move some of its Hedwin Division to Delaware, invest $6 million to outfit its new Newark based facility and create 154 new full-time manufacturing jobs in the process; and
- JP Morgan Chase, will add 1,800 jobs by 2019 and invest up to $300 million in construction projects.

To increase opportunities for working families, the minimum wage in Delaware rose to $8.25 per hour as of June 1, 2015. Delaware’s minimum wage is now $1.00 higher than the current federal minimum wage. Additionally, by facilitating the creation of programs and partnerships like Delaware TechHire (a three-month program that pairs participants with businesses that offer starting salaries around $55,000), the Governor is committed to increasing opportunities for working families.

The Fiscal Year 2016 Bond and Capital Improvements Act set aside approximately $5 million to support the redevelopment of strategic sites including NVF Yorklyn factory and Fort DuPont. The funding will provide for sustainable, mixed-use development that preserves historical and environmental interests of the areas.

The Governor signed House Bill 140, which increases Transportation Trust Fund revenue, recognizing that a modern transportation network supports economic development, creates jobs and promotes road safety.

The Governor’s regulatory reform package builds on efforts to address unnecessary burdens, especially on small businesses. House Bill 147 codifies the Governor’s Executive Order No. 36, which in 2013 resulted in the elimination or modification of more than 100 agency regulations, so that this process is repeated on a regular basis. Additionally, by signing Senate Bill 113 and 120, an impact statement, costs of compliance and a flexibility analysis must be submitted to minimize the burden on small businesses when new regulations are proposed by a state agency.

Executive Order 52 created the Delaware Expenditure Review Committee to seek opportunities to create efficiencies and provide services in a more cost-effective manner. The committee, comprised of private sector appointees from the Governor and all four caucuses of the General Assembly, brings together representatives of the business community, unions, government and the non-profit sector.
ENSURING THAT THE PUBLIC EDUCATION SYSTEM LAYS THE FOUNDATION FOR THE FUTURE

- The Fiscal Year 2016 Operating Budget made investments in Delaware’s schools, allocating $15.3 million to maintain classroom size and fully fund unit count; $11.6 million for step increases for school employees and the enhanced paraprofessional pay plan; and $3.6 million to provide reimbursement for early childcare centers participating in the tiered Stars program, which has helped the State enroll more than 3,000 additional high-needs children in the best early childhood centers over the past two years.

- Following recommendations of the Wilmington Education Advisory Committee, which was established by Governor Markell, the General Assembly passed legislation to begin work on changes to Wilmington schools. Senate Bill 122 allowed for the redrawing of school district lines to end the process of busing students far from their homes, making schools more accessible to the community and families of the students.

- House Bill 56 provides for a moratorium on the approval of new charter schools in the City of Wilmington until there is a needs assessment and strategic plan for the future of Delaware schools, including an evaluation of the number of charter, district and vocational-technical schools required to best serve student needs across the State.

- The Committee to Advance Educator Compensation and Careers, established by the Governor and General Assembly, offered details of a plan to attract and retain more great educators in Delaware schools. The Educator Work Group and Technical Advisory Group report, recommends specific increases in starting salaries to be competitive with our neighbors and offers educators the opportunity to earn more for showing leadership and taking on more responsibility in their schools (especially in high-need schools), rather than receiving salary increases solely tied to years of experience and progress toward academic degrees. House Joint Resolution 7 continues the committee and establishes working groups of educators to review the report and work out the final details of the plan.

- Launched Pathways to Prosperity: Through partnerships with Delaware Technical Community College, the business community and school districts, students have the chance to gain workplace experience and earn college credits before they graduate, so they have a head start toward getting a job or earning a degree. To further promote and support experiential learning as a workforce development tool, the Fiscal Year 2016 Operating Budget provided $700,000 for public-private partnerships between employers and schools.

- Building on efforts to ensure every Delawarean has access to education and training to thrive in today’s economy, Delaware partnered with the McKinsey Social Initiative to create Generation USA, a new job training opportunity targeted at young workers, particularly from disadvantaged backgrounds. By bringing together health care employers with non-profits and Delaware Tech, the program provides Wilmington young adults accelerated training as certified nursing assistants in a fast-growing sector of the economy.

- Delaware expanded Governor Markell’s world language immersion initiative to 16 programs, giving more than 2,100 students the chance to take half of their classes in Chinese or Spanish and become proficient by fourth grade.

- House Bill 90 addressed suicide prevention in schools, requiring all public school employees to receive 90 minutes of training each year on suicide prevention. It also requires all public schools to establish a suicide prevention committee and local education agencies to create a suicide prevention policy.

- To support early learning programs, the State has provided increased professional development to assist early learning center staff in curriculum development, assessments and other areas; aid for teachers to raise their education levels and pursue additional relevant degrees; and assistance with child development screenings and mental health consultations. Eligible centers have also received increased reimbursements from the State for accepting low-income students, and the level of reimbursements increases with a program’s quality rating.

- The 2015 Smarter Balanced Assessment results are the first scores for the test, which is aligned with Common Core - Delaware’s new, higher academic standards. Statewide, more than half of students in third through eighth grades and in 11th grade were “proficient” or better in English. In math, almost 39 percent were “proficient” statewide. Delaware students outperformed estimates - based on a 2014 national field test in both subjects for every grade with the exception of 11th grade math.
**IMPROVING PUBLIC SAFETY, HEALTH AND QUALITY OF LIFE**

- The Wilmington Public Safety Commission, established through House Joint Resolution 2, passed by the General Assembly and signed by the Governor, conducted a rapid, fact-based and intensive examination of public safety strategies in the City of Wilmington, which resulted in thorough and actionable recommendations.

- In order to expand job training programs at correctional facilities, the Fiscal Year 2016 Bond and Capital Improvements Act provided $2.7 million for auto and culinary arts training facilities.

- The Governor supported and signed bills decriminalizing the possession of one ounce or less of marijuana, as well as minor Department of Natural Resources and Environmental Control offenses to refocus resources in areas where they are needed most.

- Discretionary expungement of juvenile offenses was modified under House Bill 75 to allow more individuals the ability to petition the court for an expungement, which allows the court to consider an expungement when the individual has demonstrated rehabilitation despite multiple youthful indiscretions.

- A plan to end veteran homelessness this year was developed by state and federal agencies, nonprofit providers and service agencies to identify homeless veterans and help with providing the necessary services.

- Building on the initiative to make Delaware a more walkable and bikeable state, Governor Markell signed Executive Order 54, establishing the Advisory Council on Walkability and Pedestrian Awareness, which will bring together key members of state agencies, local government representatives, as well as non-profit and citizen advocates to support and make recommendations to increase safety, accessibility and connectedness of pedestrian paths throughout the State.

- To improve and expand services available to combat the addiction epidemic, the Fiscal Year 2016 Operating Budget allocated $4.5 million to increase withdrawal management services statewide; double the number of sober living residential beds to support individuals in the early stages of recovery who require safe housing free from drugs and alcohol; double the number of residential treatment beds for young people beginning their recoveries from opiate addiction; and open other new programs throughout the State to increase access to treatment.

- Recognizing the ever-increasing need to strengthen online safety and security in a society that relies heavily on the internet, Governor Markell signed Executive Order 55, establishing the Delaware Cyber Security Advisory Council. The council will bring together key members of state agencies, higher education and businesses to support and make recommendations on issues such as developing best practices to mitigate cyber security risks to critical infrastructure and protected systems; improving overall cyber security posture across all sectors in Delaware; and increasing information-sharing between all sectors in Delaware.

**MEETING BUDGET CHALLENGES WHILE MAINTAINING FISCAL DISCIPLINE AND RESPONSIBILITY**

- Serving as good fiscal stewards of public dollars is a key component of governing responsibly. The Fiscal Year 2016 Operating Budget highlights Governor Markell’s ongoing commitment towards this effort. Governor Markell signed a balanced Fiscal Year 2016 Operating Budget to cap a legislative session focused on increasing economic opportunity for all Delawareans.

- The Fiscal Year 2016 Operating Budget contains 2.6 percent growth over Fiscal Year 2015 despite increases in health care costs and the number of children attending Delaware schools. Average annual budget growth during the Markell administration (2009-2016) has been negative when adjusting for inflation and population growth.

- The State has continued to receive a AAA-bond rating from all three rating agencies in large part due to appropriating just 98 percent of available revenues and maintaining a fully-funded reserve. This year’s budget adheres to those principles.

- As of June 1, 2015, there were 635 fewer state employees working in the Governor’s executive branch agencies compared to March 2009. From Fiscal Year 2009 to Fiscal Year 2015, more than 1,000 state employee positions have been eliminated through attrition. Additionally, more than 100 positions were eliminated in the Fiscal Year 2016 Operating Budget.

- Despite a fiscal climate that has remained challenging even in a time of job growth, the funding appropriated in the Operating Budget, Bond
and Capital Improvements Act and Grants-in-Aid bills keeps the Governor’s commitment to fiscal responsibility.

BDPA assists agencies in the planning and implementation of operational programs and capital projects affecting all Delawareans. In addition to managing the State’s budget process, the unit manages the statewide Clearinghouse function for the application of federal grants, works in coordination with the Division of Accounting on statewide accounting policies and provides support and guidance to state agencies. During Fiscal Year 2015, BDPA focused on management control efforts aimed at monitoring and reducing statewide expenditures, as well as maximizing the use of existing resources. Additionally, BDPA began the process of implementing a new statewide budget development system by issuing a request for proposals and selecting a solution. The new system is scheduled to be available beginning in Fiscal Year 2017.

Financial Operations is responsible for the agency’s preparation and management of payroll, accounts payable and receivable, grants, budget preparation, fiscal year start-up and close-out and financial reporting. During Fiscal Year 2015, the accounting fiscal year was closed successfully, and all reconciliation and transaction deadlines were met.

Information Technology's (IT) primary responsibilities are to provide network and desktop support, as well as application development and website support for a workforce of over 350 users. During Fiscal Year 2015, IT continued to focus on infrastructure consolidation, application enhancements and security. IT replaced computers for four business sections and migrated and virtualized the majority of OMB's servers to the Department of Technology and Information data center. Security and usability enhancements were made to multiple OMB websites and applications, including the Spousal Coordination of Benefits application that is used by all state employees and participating groups.

Background and Accomplishments

In Fiscal Year 2015, Mail/Courier Services handled three million pieces of United States Postal Service (USPS) mail. The unit handles 900,000 pieces of interdepartmental mail annually.

In Fiscal Year 2015, Fleet Management completed an extensive update of management software, providing access to the reservation database to agencies outside the core state network. Global Positioning System installations continued in vehicles owned by agencies, which are now encouraged to adapt the technology to better control vehicle use and reduce fuel consumption. The Delaware Fleet program was nationally recognized, for the seventh consecutive year by Government Fleet magazine as a Top 100 Best Fleet from among 38,000 eligible government operations. The Delaware Fleet program continues to maintain vehicle service and repair at high levels, ensuring state employees are provided safe and dependable vehicles.

State governments are mandated by both the Federal Clean Air and Energy Policy Acts to purchase vehicles capable of reducing air pollution and reducing dependence on foreign oil. In Fiscal Year 2015, 319 of 363 units purchased qualified as alternative fuel vehicles. Forty-two hybrid-electric units are being used and evaluated on a life cycle basis. The total fleet alternative fuel capable component is 73.9 percent.

The Contracting unit continues to use best practices through strategic sourcing and cooperative procurement. The unit is the centralized clearinghouse for all agency solicitations posted on bids.delaware.gov, as well as responsible for providing contract resources, vendor usage reports and business intelligence available on mymarketplace.delaware.gov, which is the statewide central procurement portal.

In Fiscal Year 2015, GSS began implementation of the State of Delaware eMarketplace. The site will simplify the search and procurement of frequently purchased items. The eMarketplace will improve contract and purchase visibility when used in combination with the current mymarketplace.delaware.gov site.

In Fiscal Year 2015, the Contracting unit received a nationally recognized Cronin Award from the National Association of State Procurement Officials (NASPO) for its creation and management of the Copier Resource Management Program, which reviews and recommends aggregated printer resource utilization within departments that include supply, maintenance and repair services. Through the end of Fiscal Year 2015, the program has saved over $3.8 million since implementation in 2011. The team also received separate Honorable Mention from NASPO’s Cronin Award committee for the supplier and agency training program created and operated within this group.

Surplus Services functions as a redeployment unit for excess state-owned physical assets in accordance with 29 Del. C. c. 70 and 63A. The unit assists agencies with the process of declaring assets as excess and manages the redeployment of these assets.

The Food Distribution unit acts as the sole state agency to receive, warehouse and distribute food commodities issued by the federal government for use in the National School Lunch program, non-penal, tax-exempt private or public institutions, state correctional institutions and to provide assistance to other needy persons in accordance with §416 of the Agricultural Act of 1949.
The Payroll Human Resources Statewide Technology (PHRST) system is the cornerstone of the State’s ERP. The system is an integrated software application consisting of four of the Human Capital Management (HCM) modules within Oracle: Human Resources, Time and Labor, Benefits and Payroll. The system serves as the official information system for employee life-cycle tracking activities relating to management of employee human resources, benefits, payroll and time and labor records.

The PHRST team provides leadership and core services to ensure an automated management information system environment in which all state organizations can maintain accurate, timely and complete human resources, benefits, payroll and time and labor data. PHRST seeks to promote an environment of best practices as they relate to an ERP for the State.

**CRIMINAL JUSTICE COUNCIL 10-07-01**

**MISSION**

The Criminal Justice Council (CJC) is an independent body committed to leading the criminal justice system through a collaborative approach. Representing all areas of the criminal justice system and the community, the council continuously strives for an effective system; one that is fair, efficient and accountable.

**KEY OBJECTIVES**

• Develop a strategic plan using objective research, analysis and projections to improve understanding and effectiveness within the criminal justice system.
• Identify budget priorities supported by CJC and presented annually to the Governor and Joint Finance Committee.
• Promote crime reduction through interdisciplinary approaches emphasizing community partnerships and empowerment and encouraging community participation through public hearings.
• Use technology to enhance the administration of justice.
• Increase the number of victims made whole through effective restitution and timely restoration, placing increased emphasis on juvenile justice, the elderly and victims of domestic violence.
• Provide knowledge to the criminal justice community and general public through training, technical assistance, dissemination of information and effective use of technology.

• Provide leadership in preventing disparate treatment by including individuals who reflect the diversity of the community in the decision-making process.

• Promote a full range of sanctions and rehabilitation for offenders, including, but not limited to, job skills, education, counseling and drug and alcohol treatment.

BACKGROUND AND ACCOMPLISHMENTS

CJC was created by statute in 1984 to develop and implement policies for improving the criminal justice system in the State. The council serves as a liaison between the federal government and state criminal justice agencies. The council consists of 29 members, including representatives from the Judiciary, state and local police departments and state and local government.

In Fiscal Year 2015, CJC awarded funding, in excess of $8.1 million to 139 programs, which supported various initiatives to improve the criminal justice system and community. CJC also continued to administer $10.8 million in other active grants awarded in previous fiscal years. These funds supported various initiatives including:

• Community-based drug treatment;
• Juvenile delinquency prevention;
• Anti-crime programming;
• Recidivism reduction;
• Specialty courts;
• Law enforcement training and equipment;
• Community corrections and reentry services; and
• Victim services.

CJC administers federal funding from various U.S. Department of Justice grants and also submits additional competitive discretionary grants when appropriate.

CJC administers 29 subcommittees and working groups that examine priority issues of the criminal justice community. In Fiscal Year 2015, CJC continued to assist the Departments of Health and Social Services, Correction, Labor, Education and the Delaware State Housing Authority with developing and implementing the Individual Assessment, Discharge and Planning Team, a statewide reentry plan for offenders and an initiative of the Governor. This plan maximizes resources by creating interdisciplinary approaches to support an offenders’ successful re-integration into the community and increases availability and access within five identified reentry pillars: housing, employment, human services, education and community integration.

CJC works with criminal justice agencies to identify and support budget and policy priorities. This includes working with the General Assembly regarding the consideration of bills affecting the criminal justice system. During Fiscal Year 2015, CJC reviewed 34 legislative bills related to criminal justice. CJC employs a federally-funded criminal justice coordinator to serve as staff liaison between the Delaware Sentencing Accountability Commission (SENTAC) and CJC to facilitate cooperation and promote a full range of criminal sanctions and rehabilitation options for offenders.

CJC continues to support the statewide videophone system. On June 30, 2015 there were 105 videophone sites and plans for additional sites and upgrades are being developed. CJC provides services through the Policeman’s Bill of Rights legislation, monitors implementation of the Victim’s Bill of Rights requirements and administers the Law Enforcement Education Reimbursement Fund.

CJC supports the Domestic Violence Coordinating Council (DVCC). DVCC provided training to approximately 1,056 individuals at various training events throughout the State. DVCC collaborates extensively with community partners statewide by participating in public awareness and training efforts.

Other criminal justice-related efforts during Fiscal Year 2015 included:

• Staffing the Justice Reinvestment Initiative Oversight Group, created by Executive Order 40, to improve public safety and the allocation of resources in the criminal justice system;
• Staffing the Sex Offender Management Board to review guidelines and standards for adult and juvenile sex offenders;
• Disbursing $105,965 collected from certified copies of marriage and civil union licenses to support services for domestic violence victims;
• Continuing to support the Delaware State Police annual law enforcement training conference attended by 175 individuals;
• Providing 51 law enforcement education reimbursements to 29 police officers;
• Providing funding for more than 300 officers to attend Law Enforcement Executive Development Association training, sponsored by the Federal Bureau of Investigation;
• Administering $2,082,614 for after school prevention programs; and
• Developing and implementing an Internet-based electronic grants management system.

**DELAWARE JUSTICE INFORMATION SYSTEM 10-07-02**

**MISSION**

To establish policy for the development, implementation and operation of a comprehensive integrated infrastructure, which in turn supports the criminal justice community. Delaware Criminal Justice Information System (DELJIS) commits to providing a system to improve criminal justice and enable bias-free decision making.

**KEY OBJECTIVES**

• Operate, maintain and develop the Criminal Justice Information System (CJIS).

• Provide system access, including training and security.

• Provide information sharing to authorized users.

• Provide information system auditing.

**BACKGROUND AND ACCOMPLISHMENTS**

DELJIS was established pursuant to 11 Del. C. 86 to maintain an accurate and efficient CJIS database. An independent board of managers was created to establish policy for the management of an information system. The law allows for an executive director and staff to implement and administer the provisions of this chapter under the direction of the board of managers. In June 1982, the statute was amended to create the Office of the Director and delineate the duties of the Executive Director and the office within CJIS.

In Fiscal Year 2015, DELJIS continued enhancing the criminal justice system by accomplishing the following:

• Modifying Delaware Code to better provide established system access and overall security to the CJIS files;

• Continuing to re-write the Law Enforcement Investigation Support Suite (LEISSL) to move LEISSL to the next generation of computer operating systems;

• Developing and deploying a comprehensive early notification system, assisting the Office of the Attorney General with advanced notices necessary to process cases in a timely fashion;

• Engineering and automating the process in which the State participates in the Federal Bureau of Investigation National Data Exchange; and

• Developing interfaces for red light violations, data analysis on violent crime trends and to effectively collect the newly required surcharges.
