MISSION

Improving the lives of Delawareans through advanced technologies that innovate government services.

KEY OBJECTIVES

- Provide exceptional services to state organizations, Delaware residents and businesses.
- Deliver efficient and effective technology services and shared solutions.
- Strengthen operations and security through statewide solutions and universal standards.
- Attract, retain and support a talented and engaged workforce.

BACKGROUND AND ACCOMPLISHMENTS

- Maintained cloud-based solutions and added over 900 physical servers to the virtualized private Delaware cloud.
- Provided support for the Managed Staffing Provider program, which yielded savings throughout the State.
- Developed statewide technology roadmaps.
- Administered the Cyber Security Computer-Based Training Tool, which was successfully completed by all employees.
- Continued to increase the adoption of shared solutions leveraged by the Department of Technology and Information (DTI) and its customers.
- Maintained efforts to reduce risk, improve service and delivered value for consolidated agencies.
- Provided oversight for the statewide data management and governance council and continued the implementation of data management standards.
- Continued a major quarterly review process for all projects over $2 million.

OFFICE OF THE CHIEF INFORMATION OFFICER  
11-01-00

MISSION
To provide leadership and policy direction for DTI to ensure the department is well-managed.

KEY OBJECTIVES
- Work with the Governor, General Assembly and others to identify strategic technology projects and provide support and input for the successful development and deployment of such projects.
- Assist state organizations with understanding the strategic value of information technology and how it supports business goals and objectives.
- Provide leadership, direction and support to enable employees to achieve key objectives and performance measures established for the department.
- Develop collaborative partnerships and foster active and open communication with internal and external customers.

SECURITY OFFICE  
11-02-00

MISSION
To provide a governance structure for information security, disaster recovery and business continuity. This structure encourages an enterprise-level climate of ownership and accountability for the confidentiality, integrity and availability of information assets.

KEY OBJECTIVES
- Continue to lead and implement the statewide information security program and the statewide Business Continuity and Disaster Recovery program.
- Design and build the DTI Security Operations Center team.

CHIEF SECURITY OFFICER  
11-02-01

ACTIVITIES
- Continue statewide governance of the Delaware Information Security program, including policy, education, awareness, security operations, compliance and risk reduction.
- Ensure priority response and recovery for the Continuation of Operations Program through statewide governance.
- Increase resiliency against data loss, data breaches and data leakage.
- Expand outreach, partnerships and collaborations with other governments, higher education and critical infrastructure providers.
TECHNOLOGY AND INFORMATION
11-00-00

- Provide leadership and support of unit employees in meeting the goals and performance measures established for the department.
- Work collaboratively across all units to meet the needs of DTI customers.

OPERATIONS OFFICE
11-03-00

MISSION

Provide solutions to meet the business needs of our customer agencies in the most secure manner possible.

KEY OBJECTIVES

- Improve and enhance Information Technology (IT) availability and reliability through continuous improvement of processes and procedures.
- Establish enterprise solutions that improve efficiency and cost containment for the State by leveraging investments across several agencies.
- Ensure the successful operational implementation of IT consolidation efforts, while addressing the technological needs and issues of all state agencies within the framework established by the department.

**CONTROLLER’S OFFICE**

**11-03-02**

**ACTIVITIES**

- Provide financial management for the department.
- Work with DTI team leaders and senior management to ensure the alignment of financial controls and constraints with departmental objectives.
- Establish contractual relationships with outside business partners to aid the department in achieving objectives.
- Formulate recommendations on IT investment strategies on a statewide basis.
- Work with customers and agencies to provide centralized IT and telecommunication services.

**DATA CENTER AND OPERATIONS**

**11-03-04**

**ACTIVITIES**

- Oversee the effective operation of systems used to support multiple agency solutions and maintain the integrity and effective operation of the State’s data centers.
- Track and monitor computing inventory to ensure proper life cycle replacement schedule and efficiency of usage.
- Ensure the stability of the State’s data centers through effective maintenance programs for the complex infrastructure designed to support IT investment.
- Operate a 24/7 service desk in support of enterprise systems.
- Provide support to all branches of government and school districts as needed on supported systems.
- Use the Service Now application to track and monitor the resolution of incidents.
- Provide enterprise desktop management and support for consolidated agencies.

**TELECOMMUNICATIONS**

**11-03-05**

**ACTIVITIES**

- Maintain the statewide information transport networks and associated enterprise systems such as e-mail, voice, wireless, Internet and storage.
- Provide telecommunications infrastructure support for all state agencies including public schools.
- Design, implement and maintain solutions to secure the State’s network resources from intrusions and malicious and nuisance activities.
- Provide technical leadership and assist with vendor management, ensuring system designs meet state standards and policies.

|----------------------|----------------|----------------|-------------------|

**SYSTEMS ENGINEERING**

**11-03-06**

**ACTIVITIES**

- Maintain mission-critical systems used to support customer applications and IT solutions.
- Provide database and systems infrastructure support for customer projects and develop best practices in system deployment and maintenance.
- Maintain existing systems infrastructure used to meet customer objectives.
- Actively pursue and develop methods for consolidation of computing platforms and services that increase efficiency and cost-effectiveness.
TECHNOLOGY AND INFORMATION
11-00-00

TECHNOLOGY OFFICE
11-04-00

MISSION
Provide project and portfolio management, application development and support, vendor management, organizational change management and leadership for programs and projects that are of strategic importance to the State.

KEY OBJECTIVES
- Provide application developmental services that are on time, on budget and on specification.
- Maximize return on investment of department resources by focusing on development services.
- Consolidate technologies, infrastructure, IT training initiatives, portfolio management and quality methodologies for use across the statewide enterprise.
- Develop, deploy and enforce IT standards and policies across the statewide enterprise.
- Provide a statewide view of Enterprise Resource Planning (ERP) and Identity Access Management; promote collaboration between business and IT; and minimize duplication of IT-related costs, efforts and resources.
- Provide guidance and oversight on large-scale projects undertaken by other state agencies.
- Promote data integration and master data management in order to more effectively use data.

CHIEF TECHNOLOGY OFFICER
11-04-01

ACTIVITIES
- Ensure the successful implementation of DTI-led projects using project management and change management best practices and standards.
- Provide leadership in the delivery of shared solutions that can be leveraged by DTI and customers.
- Reduce risk, improve service and improve the cost benefit equation for consolidated agencies.
- Build deeper working relationships with the directors of the various state agencies.
- Expand IT Consolidation to help the State’s overall IT stability and performance.
- Work collaboratively across all teams within the State to provide solutions for customers.
- Review, enhance and adjust the state technology standards and policies to keep current with industry changes needed for customers.
- Provide leadership and support of the Architecture Review Board and the internal Technology Investment Council (iTIC).
- Recommend and leverage existing solutions within the State to maximize return on investment.
- Create the Statewide Strategic IT plan and provide assistance to agencies in the creation of strategic and tactical IT plans.
- Provide leadership in the governance of data to improve data sharing across state agencies.

SENIOR PROJECT MANAGEMENT TEAM
11-04-02

ACTIVITIES
- Provide active project management support, business analysis and project portfolio governance for major IT projects initiated by the department or customers.
- Provide governance, standardization and collaboration on IT project management in the enterprise.
- Provide full project life cycle management to include feasibility study, business requirements gathering, testing, vendor management and implementation.
- Provide an enterprise major projects dashboard for IT portfolio management.
### PERFORMANCE MEASURE

<table>
<thead>
<tr>

### APPLICATION DELIVERY

#### ACTIVITIES

- Work with customers to provide definition, design, development and implementation services to meet a variety of business needs.
- Provide service and technical leadership to enhance, support and extend existing systems in support of customer’s business goals.
- Assist customers with the evaluation of solutions proposed by vendors and other third-party providers.
- Develop and lead implementation of best practices for application design, construction and deployment focusing on secure, scalable and efficient systems.
- Develop applications and solutions that are enterprise-wide in nature, but are centralized for efficiency of operation and maintenance, including cloud solutions or software as a service.

### ENTERPRISE SOLUTIONS

#### ACTIVITIES

- Assist customers, primarily the Office of Management and Budget, Department of Finance and Delaware Transit Corporation with definition, design, development and implementation of services to meet the business needs of the State.
- Assist statewide organizations with definition, design, development and implementation of Single Sign-On services to meet the business needs of the State.
- Assist with the evaluation of solutions proposed by vendors and other third-party providers.
- Develop and lead the implementation of best practices for application design, development and deployment focusing on the State’s ERP solutions.

### CUSTOMER ENGAGEMENT TEAM

#### ACTIVITIES

- Coordinate customer-related activities to achieve customer satisfaction.
- Execute service-level management practices that are timely and effective.
- Develop and report meaningful service-level metrics.
- Deliver incident management communications that inform customers and contribute to effective resolutions.
- Oversee strategic planning that identifies customer’s short-term and long-term goals.
- Communicate DTI policies, standards and business practices to customers.
- Effectively support the Technology Investment Management System (former Business Case) process through counsel with customers and process improvement recommendations to iTIC.
- Support the Information Resource Manager Council for improved customer collaboration.
- Provide request for proposal consulting services as requested by customers.
- Assist in the management of major projects undertaken by the department or by customers to ensure they are prepared for cultural and technological changes inherent in major project implementation.
- Help customers evaluate Organizational Change Management (OCM) solutions proposed by vendors and third parties for customer deployment.
- Develop and help implement best practices in OCM.
- Provide OCM education on all levels of project involvement, both internally and externally.
