Delaware Governor John Carney
Governor Carney Presents Fiscal Year 2020 Recommended Budget

Plan advances priorities outlined in State of the State including public education

DOVER, Del. - Governor Carney on Thursday presented his [Fiscal Year 2020 Recommended Budget](#), sending the General Assembly a plan that will make important investments in Delaware's economy, public schools, and quality of life.

"We presented a responsible budget plan today that makes investments to improve our economy, strengthen our public schools, and protect Delaware's unique quality of life," said **Governor Carney**. "This plan makes significant investments in our schools to help low-income children and English learners succeed and make progress in closing our opportunity gap. We'll also continue to make important one-time investments in environmental protection, and our infrastructure. And we are proposing to set aside \$92 million in savings, to help prepare for years when our revenue trends downward. This is a balanced, responsible plan that I look forward to discussing with members of the General Assembly."

"The Governor has presented a recommended financial plan that targets resources toward issues that are important for all Delawareans, including our schools, our economy, and our environment – while setting aside substantial reserves should our revenues weaken in future fiscal years," said **Mike Jackson, Director of the Office of Management and Budget**. "I look forward to working with the Joint Finance Committee, the Bond Bill Committee, and the entire General Assembly over the next few months to craft final appropriations legislation for Fiscal Year 2020."
