Delaware Criminal Justice Information System

At a Glance

- Operate, maintain and develop the Criminal Justice Information System (CJIS);
- Provide system access, including training and security;
- Provide information sharing to authorized users; and
- Provide information system auditing.

Overview

The Delaware Criminal Justice Information System's (DELJIS) mission is to establish policy for the development, implementation, and operation of a comprehensive integrated infrastructure that supports the criminal justice community. DELJIS is committed to providing a system that improves criminal justice and enables bias-free decision-making.

In accordance with the overall mission, DELJIS has developed and enhanced numerous applications to better serve criminal justice partners, such as the Law Enforcement Investigative Support Suite (LEISS). LEISS encompasses crime and crash reporting, impaired driving reporting, warrants and summons, tow requests, sex offender notification, and tracking, along with other ancillary investigative tools.

DELJIS has over 11,000 active users with direct and indirect access, and over 18,000 programs encompassing 170 files. There are over 10 million charge records in the CJIS database. The quality of the records in CJIS and the availability of data are indicative of the outstanding partnerships DELJIS has with all criminal justice agencies. The CJIS database, that DELJIS stewards, is considered one of the single most important tools of the criminal justice community.
