Clearinghouse and the Intergovernmental Review

In State fiscal year 1976, the Delaware General Assembly established the Delaware State Clearinghouse Committee (DSCC) for the purpose of reviewing State agencies' requests for federal assistance and federal and non-federal grant coordination. This includes requests from higher education institutions as well as private agencies and local governments whose proposals impact the State budget directly or indirectly.

On July 14, 1982, President Ronald Reagan issued Executive Order 12372 "Intergovernmental Review of Federal Programs," to encourage intergovernmental partnership and coordination.

The Intergovernmental Review relies on State and local procedures for the review of proposed Federal aid. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those federal financial assistance and direct development activities they wish to review.

Clearinghouse and the Intergovernmental Review

Any State agency, local government, or private organization that is seeking federal financial assistance for an activity within the State of Delaware must submit grant information to the Single Point of Contact (SPOC) for Intergovernmental Review. Applicants for grants will need to meet the requirements of the Intergovernmental Review process established by a particular state and its local governments before Federal agencies act on the application.

Most states, including the State of Delaware, have acted to establish a review and comment system in response to E.O. 12372. The E.O. 12372 review process for the State of Delaware is part of the State Clearinghouse for federal grant review. The Federal Standard Form 424 application includes the question "Is this application subject to review by State Executive Order 12372 process?"

The purpose of the Intergovernmental Review process is to:

- avoid duplication of effort in the use of federal funds;
- ensure compliance with federal and state statutes, and state and local plans;
- carry out the policies of the Administration; and
- determine impact on current and future state budgets.

Clearinghouse Cycle 45+ Day Process

- An agency inputs grant information into Pre-Award and submits for approval prior to or at the same time as submitting the federal application.
- Federal Aid Coordinator compiles the grant packets and reviews.
- Agency Analyst reviews grant packets and completes a written preliminary review.
- Director reviews completed grant packets including preliminary review.
- Proposals may be sent back at any time during this process for additional information.
- Agenda is prepared and posted on the Clearinghouse website, the statewide Public Meeting calendar, and distributed to all grant contacts and Committee members.

Clearinghouse Cycle Cont.

• Delaware State Clearinghouse meeting is held. Required attendance grants are presented to the Committee by an agency representative and voted on. Nonrequired attendance grants are voted on as a whole. • Federal Aid Coordinator approves the grants in Pre-Award. • Clearinghouse Admin approves in Workflow. This notification will serve as the agency's final letter and will generate an FSF email notification. Final letters for grants outside of FSF are signed by the Director of OMB and emailed to agencies. • Agency receives grant award notification and finalizes grant in Pre-Award moving to Post-Award. • Agency sends Federal Aid Master (FM) with the award notification to OMB FM inbox. Federal Aid Coordinator creates the GR_GROUP, GR_DETAIL, and GR_G_REV Ledgers to establish spending authority in FSF.

Pre-Award in FSF

Proposal Tab

- Ensure FFATA (Federal Funding Accountability and Transparency Act) has been identified in Additional Information (if applicable). The system defaults to NO, but most Grants are subject if over \$30,000 is paid to subrecipients.
- Ensure the CFDA number (now called Assistance Listing) is filled out correctly. If the number is not in FSF, complete Form AR001 (FSF Forms).
- Proposal title should reflect the federal grant title (no abbreviations and no acronyms).
- Multi-year grant allotment titles should identify the year of the allotment (i.e. FYXX Grant Title Name - 1st year).
- Title should reflect the State fiscal year.
- Ensure the Proposal reflects Allow Multiple Pls.
- Due By feature reflects the workflow due date.

Pre-Award in FSF

Budget Tab

- Ensure matching requirements are properly reflected on the project budget area of the proposal.
- Audit fees must be budgeted for 0.3% of the total federal funding. A corresponding portion of audit fees must be budgeted for required state match of federal funds.
- When salaries and fringe benefits are included, indirect costs should be budgeted if the agency has a negotiated indirect cost recovery rate.
- The budget amount should be the best estimate of the amount that will be awarded.

Multi-year Grant Allotments

- First Year: When applying for the initial first year of the grant cluster, the organization must submit an application for the entire "x" years of funding to the Clearinghouse Committee for approval.
- Following Years: With the original grant application having been approved by the Clearinghouse, organizations will only be required to create a proposal for additional years to establish a new contract (SAI) number for the new year of spending authority (this will be completed yearly).
- Additional Clearinghouse approval will not be necessary unless authorization amounts have exceeded 30% of the total amount previously approved through Clearinghouse.

Required Attachments in FSF

- SPOC (Single Point Of Contact) form, which is processed within the system and attached to the proposal. Attach the system generated .pdf, no scans or copies.
- Director's Overview including Director's signature.
- Personnel Summary (WPS), budget amount needs to match the SPOC form to the nearest dollar. Salaries and budget complement should match PHRST. If the budget complement requires a change, a Switch Fund Request must be included in the grant proposal.(Switch Fund Requests are Required Attendance.)
 - Exception to Multi-Year Grant WPS:
 - First year reflects only a 1-year summary and must note "oneyear" (this will not match the SPOC form).
- SF 424 application.
- Grant Notice of Award (If applicable.)
- If an attachment is missing, the proposal will be sent back. Attachments must be attached individually.
